POLICE COURT.

Part of the Judgment Suspended Against Chas. Moore.

License Warrants. Thirty in Number, Set for Next Monday.

Chas. Moore, of Metropolis, who went to Metropolis' establishment on West Court street last Saturday afternoon with a shot gun and threatened to kill his wife, being fined \$50 and costs, has tried of life on the chain gang.

This morning Attorney Jesse Gilbert, who defended him, made a motion that Judge pre ten Harris, who presided at Moore's trial on account of Judge Sanders' illness, be allowed to suspend the judgment or reduce the fine.

Major Harris was present, and suspended \$25 of the judgment.

The case against Will Hamilton, charged with stealing five saw logs from a man residing at Gilbertsville, was continued until next Tuesday, owing to the absence of witnesses. His bond was reduced to \$100.

H. H. Jones and J. H. Trace, for drunkenness, were fined \$1 and costs each.

John Houghs, charged with assaulting Christmas Fowler, was fined \$20 and costs.

Thirty warrants against persons failing to pay their licenses, were continued until Monday.

## SENSATIONAL RUMORS.

Still the Order in Washington—Crumbaugh's Confirmation will be opposed.

Congressman Wheeler is After the Book Trusts—Will Prepare a Bill Against Them.

Washington, Jan. 22.—The senate is in session today for the first time on Saturday for years. The cause is supposed to be the Cuban affairs, which are believed by many to have nearly reached a crisis. Sensational developments expected at any moment.

### FIGHTING CRUMBAUGH.

The Kentuckian's Confirmation Opposed.

Washington, Jan. 22.—Major Crumbaugh's confirmation is meeting opposition in the senate. It is said that Senators Elkins, Fairbanks and Faulkner will oppose it on the ground of incompetency, claiming that a practical engineer is necessary.

### Against the Book Trust.

Washington, Jan. 22.—Congressman Wheeler, aided by Congressman Fitzpatrick, of the Tenth district, is preparing an amendment to the copyright law, so as to break up the book trust.

### Assassinated.

Richmond, Ky., Jan. 22.—News has reached here of the assassination last night of John Henry by unknown parties. He was a prominent citizen of Clay county.

### New Attorney General.

Washington, Jan. 22.—Governor Griggs, of New Jersey, was today appointed Attorney General to succeed McKenna.

### TATE HEIRS WIN SUIT.

Connecticut Company Pays Insurance on Dick Tate's Life.

Frankfort, Ky., Jan. 22.—The heirs of Dick Tate, ex-state treasurer, have won their case against the Connecticut Mutual Life Insurance company for \$1,100. Late Thursday afternoon the attorneys for the company came to Judge Pryor and gave him the check for the above amount on a \$5,000 policy sued on, and Judge Pryor immediately asked the case be dismissed. This is an admission that Tate is dead, as was alleged in the petition. It will be remembered that suits against several insurance companies were brought on the statutory ground that seven years' absence presumed a man to be dead. The other cases will be tried next week.

### Republicans Figuring.

Mohrsville, Ky., Jan. 22.—Since the democrats are about decided that Judge Fletcher Dempsey won't be a candidate for congress, and that Col. Henry D. Allen, of Union, will, the republicans are stirring around to get their fences up and ready for another go in the Second district. It is said the leaders would like to have Col. George Scherer or Col. Frank or Judge George Jolly enter the race, but they will probably not consider it, and it is next suggested that the younger men who have not acted as sacrifices should be put to the fore. The name of Mr. Ben T. Robinson, who has been a member of the county committee, held local offices at Morton's Gap and made good races for state senator, sergeant at arms of the senate and other places, is suggested by his friends, who think he will make a good race.

### Grover's Preserve.

Trenton, N. J., Jan. 22.—Grover Cleveland has purchased a tract of land near Trenton, N. J., to be used as a game preserve. This tract consists of eighty-five acres, for which \$900 was paid. It is full of rabbits and quails, but Mr. Cleveland intends to stock it with good game and put a pretty little lodge house upon it. Mr. Cleveland will have his preserve ready by next fall, and he is already preparing to purchase quail, pheasants, partridges, snipe, woodcock, rabbits, foxes, squirrels and English hares.

It is said Mr. Cleveland will give regular hunting events for the pleasure of his friends each year.

### New Pension Rules.

Washington, Jan. 21.—Commissioner Evans, of the pension office, has in preparation a new set of regulations governing the practice of attorneys before and the adjudication of claims in the office. The effort will be made to simplify to some extent the methods now in vogue in adjudicating claims, without in any manner lessening the requirements imposed upon pensioners to show cause why their claims should not be allowed, and to relieve the embarrassment which results from different constructions of the laws by successive administrations of the pension office. There is a feeling that a claim acted upon by one administration should be regarded as "res adjudicata," unless evidence of fraud in its prosecution subsequently have been brought to light when it shall be reopened. The new rules require the approval of the secretary of the interior before becoming operative.

## JAPAN READY FOR WAR!

Government Cuts Off Telegraphic Communication and Mobilizes Army and Navy.

The Fleet Ordered to Go to Wei-Hai-Wei—Teis Means Open Defiance to Russian Government.

London, Jan. 22.—The St. James Gazette yesterday afternoon, commenting upon the dispatch from Yokohama, saying that a fleet of nine Japanese warships will leave Japan in the course of a week for Chinese waters, says:

"Japan is prepared for war. That, in a nut shell, is the news from Yokohama today, and it is really the first news from Japan since the beginning of the Chinese crisis. It will be obvious that the Japanese government has stopped telegraphic communication, which it never does except when mobilizing an army or navy. That is precisely what it has been doing. It is almost certain that the destination of the fleet is Wei-Hai-Wei, and there is no doubt the movement means that the statu quo in China, so far as Manchuria and Korea is concerned, shall not be altered by Russia or any combination of Russian allies, in defiance of Great Britain and Japan. So long as the defenders' policy is equality of opportunity in China, they are in a position to enforce their claims."

### M KENNA CONFIRMED.

There Was a Strong Fight in the Senate Against His Appointment.

Washington, Jan. 22.—Attorney-general McKenna was confirmed as a justice of the supreme court by the senate yesterday. A strong fight has been made against his confirmation on the ground of his incompetency, and the fact that he is favorable to trusts. There was no division on the vote.

### Many Idle in Alaska.

Tacoma, Wash., Jan. 22.—There is at present a glut in the labor market at Junesau, Dyea and Skagway. More workmen than there are jobs, with the result that the wages are coming down and many men are now eating up their supplies and earning nothing. When a good fall of snow comes, followed by a freeze, the situation will be changed, for then transportation of supplies over Chilcoot and White passes will commence in earnest, and every man now there can get work.

### Killed Over Cards.

Albany, Ky., Jan. 22.—Jas. Taylor and Thomas Stockton were killed and another is dying, as the result of a game of cards last night. The killing occurred out in the county.

### PREPARING FOR WAR.

England May Yet Go to War With China.

New York, Jan. 22.—Advices from London indicate that England is determined to go to war with China if not treated properly.

### Teller's Resolution.

Washington, Jan. 22.—Senator Teller's resolution authorizing the payment of government bonds in either gold or silver, is being debated in the senate today.

### TRAINS ANNULED

On the Nashville, Chattanooga & St. Louis Railway.

The heavy rains down the Nashville, Chattanooga & St. Louis railroad last night, and today resulted in the afternoon freight and this evening's passenger trains being annuled. No great damage is reported from the floods, but it was deemed best not to run the above named trains this afternoon and tonight. The first passenger train over this road will leave Paducah tomorrow morning at the regular time.

LATER.—Trains Nos. 108, 102 and the passenger train will go out tonight on the N. C. & St. L. at 8:30. They were delayed by rain.

REPORTED DISTURBANCE.

The Police Were Called Upon to Investigate.

The police about noon today were notified that a citizen was creating a disturbance at his home on Madison street, by assaulting his wife, and pursuing her with a pistol.

Officers Jones and Hoyer went down to investigate, but could not learn sufficient at the time to justify a warrant, although the neighbors claimed there had been a disturbance.

Marshal Collins said a warrant would be issued if additional evidence could be secured.

### The Next Show.

Robin Hood, Jr., a burlesque, will be the next attraction at Morton's opera house on February 1.

## REFUSED THE PAUPERS.

The Fowler Packet Company Does Not Want Passengers of That Kind.

Story of Three Paupers Who Walked from Cairo to Paducah, Via Fulton.

The Fowler Packet company got even with Mayor Lang today. It daily refused to transport to Henderson three paupers, who were provided with transportation and a spare place of money each, by the city. The refusal is supposed to be a retaliatory measure against the city over its action several days ago in notifying the company that it would have to take care of two or three paupers from Saturday until Monday and then carry them free of charge to Cairo, or be prosecuted for landing paupers here. The company in the past has been no little advantage to the city in transporting people in distress at half fare.

The three paupers Mayor Lang desired to ship are James Jones, aged about 25, and her brothers, Paris Jones, aged 18, and John Jones, aged 7. They all three walked from Cairo to Paducah, coming by way of Fulton, in order to secure the advantage of walking on the railroad track. They informed Mayor Lang that it was too wet to travel across the country, and although it was a great deal further by way of Fulton, they walked every step of the way, sleeping and eating wherever they could.

Their home is in Henderson, but they have been living in Cairo. They started back to their old home day before yesterday, first shipping their household goods by rail. They reached the city last night in a very destitute condition, and were cared for at the city hall. This morning, when arrangements were completed for sending them to Henderson by boat, the Packet company refused to take them, and it was decided to send them by rail.

Pittsburg, 11.7, rising.  
St. Louis, 6.5, rising.  
Paducah, 37.7, rising.

Thirty-one feet is now expected to be the limit here.

The W. F. Nisbet, from Cincinnati, is due down today en route to Memphis.

The H. W. Battuff is due here out of the Cumberland river tomorrow and leaves on her return to Nashville Monday morning.

The City of Shiloh is due here from St. Louis Tuesday morning en route up the Tennessee river.

The Tennessee is due here tomorrow from Evansville and leaves on her way up the Cumberland to Nashville Monday. The City of Carlsville left today at noon for Evansville doing a good business.

The towboat Charles McDonald arrived here out of the Tennessee river yesterday afternoon, with a tow of two. On her way up she broke one of her putman straps, which was repaired last night. She left for Cincinnati this morning.

The Clyde, like the rest of the packets, arrived out of the Tennessee river many hours "tardy" last night. She had a magnificent trip of freight, a portion of which she unloaded at Brooklyn to go to St. Louis by rail. She leaves on her return up the Tennessee tonight, and is expected to carry a big cargo, as usual.

Captains A. B. Miller, of St. Louis, and John Winfrey, of this city, are going to take the Jack Frost up the Tennessee river today.

The Dick Fowler was the only packet out on schedule time today. She was away for Cairo as usual. The Joe Fowler arrived here early this morning.

this morning, being nearly twenty-four hours behind time owing to the heavy business between here and Evansville. She put off a large amount of grain at the upper incline and left on her return to the "Hoosier City." The John S. Hopkins was also due here today, but failed to get in her appearance at a late hour.

Captain William C. Eagon, of St. Louis, arrived in the city yesterday afternoon to take charge of his steamer, the U. S. lighthouse tender Lily, which is in winter quarters here.

Sup. Young Taylor, of the dry dock who has been sick for the last week, went out again yesterday afternoon. Work at the docks and ways was practically suspended today on account of the bad rainy weather.

The towboat Jack Frost leaves today for Tennessee river after a tow of five. Everything that can be secured is being pressed into service by the men trying to secure their timber from the water. Stave bolts by the thousands are in danger of being floated away on the banks of the Tennessee river and already some of them are in the water.

The towboat Larna Doone is laid up now at Danville and part of her crew returned home on the Clyde last night. The current in the Tennessee river is getting to swift for her to navigate and consequently she will have to wait until the river goes down before she can make her debut. She shipped her poultry, eggs etc. from there to St. Louis by rail.

Towboat Fred Nellis goes up the Cumberland river today after a tow of ties for Ayers and Lord. The towboat D. D. D. left yesterday afternoon for the lower Mississippi river after a tow of timber for the Moss Company. The harbor boat at Brooklyn, the Lausaco, was up yesterday afternoon with some tie barges for Capt. E. Johnson. Capt. Rowe is getting in charges in readiness to go up the Tennessee river tomorrow after stave bolts for Seamon & Co. here.

Heavy business was of very little consequence down about the river front this morning, owing to the inclement weather. The arrivals and departures were few and those that did arrive, did so in trouble in landing and getting out on account of the heavy rain in shore water. The harbor tug Lily assisted the Joe Fowler and Clyde on this morning, they being wind bound.

Still the dark wild waters of the muddy Ohio continue to gradually cover the levee here and shorten the gauge considerably every day, notwithstanding that some of the experienced river men predicted that it would be falling here today. The water this morning at 7 o'clock had crawled five notches up the official gauge since last night at 6 o'clock, making the gauge read 37.7. At 9 a. m. the gauge showed 37.8 making a rise of one tenth in two hours.

SATURDAY, JANUARY 22, 1898

The average Daily Circulation of the Sun for the year 1897 was 1539 copies, as shown by the daily records of the office and proved by the sworn affidavits of four responsible men.

The Sun claims the largest circulation of any daily paper in Paducah. From the day of its first issue it has made its circulation public and asks its advertisers to make a complete investigation of its circulation books at any time. No other paper in Paducah will state its circulation.

As we go to press, Senator Lindsey has not resigned. The fact that the Bryans of Kentucky want his resignation, does not seem to effect the senior Senator at all.

The Kentucky Legislature has issued instructions to the Congressmen from this state how to vote on the Anti-Scale bill now before the National House. Our Legislature may be eccentric, but it has a very excellent opinion of its own importance.

The present legislature is noticeable for the number of newspaper men who are among its members. The Hon. John Mc. Melan of Calhoun county, has taken a prominent position and his merit has been recognized by being given the chairmanship of one of the most important committees. Mr. Melan is well known in this city and his friends are pleased, though not at all surprised at his success.

The Fall River (Mass.) Globe sent a correspondent South to get facts as to the character of the Southern competition in cotton manufacture. He went to the Piedmont region in North Carolina where there are 200 cotton factories within 100 miles of Charlotte. The correspondent summed up the basis of Southern competition in the facts that the operatives are temperate and industrious, and that there is no clashing of races among them; the hours of labor are long, wages are low, living is cheap, and everybody is contented and happy.

**A WASTE OF ORATORY.**  
The pyrotechnical display that is being produced in Congress over Cuba by the Democratic members of the House is all for effect and is nothing but a grand-stand play. Furthermore this fervid oratory will not change the policy of the administration. When the crisis in Cuba arrives this government will be ready to meet it. Speaking of the debate in Congress the Washington correspondent of the Courier-Journal says:

The Democrats in the House may as well subsidize on the Cuban question. This government will not accord belligerent rights to the Cuban insurgents until President McKinley and Speaker Reed get ready. This is as plain as daylight when the sun shines. In the meantime, Gen. Lee, a good Democrat, is on the watchtower at Havana, and when he gives the signal to the White House the fun will commence. The Democratic minority under McKinley can do no more for Cuba than did the Republicans under Cleveland. The administration is responsible for the conduct of the government upon all questions, national and international, and will of course run things to suit itself. The Democrats in Congress know this, and all their twisting of the Spanish tail and spread-eagle oratory is fried-over-and-baked-to-crisp political buncombe and rot.

## GOOD TIMES IN LOUISIANA.

A writer in the American Economist from Louisiana sketches the situation in that state as follows:

The sugar harvest is drawing to a close in Louisiana, and all parties concerned are well pleased. Protection has made a great difference to the cane planters and sugar manufacturers, as compared with the disastrous years of free trade, especially those of 1894-5. The prices now realized are fully sixty per cent. in advance of those years, with all cane eagerly sought for by factories, competition being sharp, whereas in 1894 cane was of so little value that thousands of tons were dumped on the roadsides, where it remained to rot, silent yet eloquent monuments of the effects of free trade. Today all is changed; from gloom and despair now come joy and hopefulness. Large areas of cane have been put down for seed for the crop of 1898, which will exceed any heretofore attempted in Louisiana.

Capitalists are seeking available sites for new factories, while established factories are enlarging and improving their plants, extending their railroads and making contracts for the future. Foundries and machine shops are full of orders. Mule traders are selling large numbers of mules and therefore are happy. The small planter, those making but a few acres of cane, have realized good prices, and they have money for all their wants, while the manufacturer is realizing good figures for the finished article. The wage earner is again getting good wages and steady employment. In fact, the sugar industry of Louisiana, under the beneficent influence of republican legislation, is booming and a big stride toward national supply will be made in 1898.

## Society Gossip

A TOLSON.

White as the breast of a swan is her skin.

With apple blossom's faintest pink.

Tinting her cheeks, and her ears, and her chin.

Hair brown as the fur of the mink.

White as her teeth, as the robes of a saint;

Eyes lined like the summer's blue skies;

A seraphic form no artist can paint;

Though he tries and forever tries;

Voice like the laugh of the grass-bordered brook—

In violet's time of the year,

Or song of the bird in some flow'ry-walled nook—

Entrancing the mother-maid near.

Oh, ravishing creature! my joy and my life.

But—holly horrors! she eats with her knife!

—WILL A. DAVIS.

Comparing the week with the ones passed, it has been one of exceptional quietude in social circles. It will take some time for society to get thoroughly aroused from its lethargy which follows the holiday gayeties.

The extremely disagreeable condition of the weather during the greater part of the week, prevented the accomplishment of many affairs which may have been contemplated.

Rumor says that with the opening of the spring season will come the announcement of several weddings, which will cause no little surprise. Such reports, however, are usually abroad at the beginning of each season; just the amount of truth contained in these whispers, time alone can tell.

## CLUB ANNOUNCEMENTS.

On Wednesday afternoon of next week the Young Ladies' Cynque club will be entertained by Mrs. Ed Rivers, at Mrs. Henry Thompson's, on South Sixth street.

The Married Ladies' Enchir club will have as its hostess Mrs. Laura Fowler, on Wednesday evening.

The Croikie club meets on Thursday with Mrs. Chas. Hinkle, at the residence of her father, Capt. George H. Hart.

Any novel idea which will help to solve that difficult question of how to entertain a number of guests is always a welcome suggestion, and one very pretty form of entertaining is a rose whist party. To begin with, the invitations are printed on pink paper, and announce that rose whist is to be the order of the evening. The game played is that familiar one of progressive whist, with the exception that each player keeps account for herself of all the red cards which are taken, and nothing else is counted. When the game ends the fortunate player who holds the most red cards takes the first prize, while the one who has taken the least gets the "shoozy." The prizes should be something pertaining to the rose. Numerous articles can be thought of, such as rose hawks, rose candlestick, rose sachets, bottles of rose perfume, vases, etc. Upon each table are placed four full grown La France or Mermet roses, with long stems and green leaves, as well as a small dish filled with pink and white bonbons. Each player has a tally card of pink paper and a pink pencil attached for keeping score. The roses served are pink and white, and the dining table should be gracefully draped with pink ribbons, with rose petals strewn about on the cover. In fact roses in profusion should be everywhere, and the lights should be softly shaded in pink. This can be made a very pretty form of amusement, and one's own ingenuity could suggest many more features to make a rose whist party a great success.

A courteous and formal invitation bearing the letters "R. S. V. P." in the right hand corner of the card sends rather an unpleasant shock through the sensitive and cultured recipient. It should be remembered by the gay and favored ones that all invitations, excepting ten and wedding cards, demand a prompt reply and it should not be necessary for a hostess, to remind her guests of the social obligations which they assume when they become a part, either through birth or circumstances, of that great unconstitutional body recognized as society.

## YAKS AND FANTIES.

Rumors tell us that diamond rings and jeweled bracelets have superceded gloves for theater wear in Paris, and the most fashionable women have discarded gloves entirely in order to display brilliant gems. Various features of fancy dress are being introduced into bridesmaid's costumes in England, and the polka-hue headgear is said to be very effective. Small parrots of flowers, floral muffs, and a shoe filled with blossoms all carried in place of the conventional bouquet.

The last cry of fashion in evening gowns calls on us to wear three dis-

tributed skirts—one of silk, another of mousseline de soie and the third of gauze, or other attractive and transparent material—their name is legion this season.

WRITTEN BY A WOMAN.

Without respect love is brutal. Nothing will make a woman truer than she wants to be.

The most frequent cause of divorce is absence of the sense of humor. Inferiority, even when feminine, has no attraction for the man of sense.

A young man's first love is never a girl: she is too much like himself. The howl against the stronger sex is raised by women who took men for angels and found them only men.

We girls are too young, to know until we are too old to learn.

## SITUATION AT WASHINGTON.

The Republicans of the House May Force the Administration into War.

Congressmen Claim to be Forced to take a Decided Stand for Cuba by Constituents.

Washington, Jan. 22.—Cuban news was flying fast and furious about the Capitol yesterday. One story was put in circulation in the morning that the President was preparing a special message, in which he would ask for \$1,000,000 for the transportation of troops. This and other reports were followed by denials, and there seems no way of getting at the truth of any of them. One thing is certain, however, and that is that the administration is greatly alarmed at the situation here in the House of Representatives. It was these phantasms of the situation that had the Cabinet in session yesterday. The Cuban matter took up all the time of the President and his councilors. As grave as the situation is on account of the attitude of the Spanish, it is not as serious in the eyes of the administration as the attitude of the republicans in the house.

During the last few days the debate has developed the fact that the party lash will not be sufficient to hold the republicans back much longer.

The President has been in the house and he can read the signs of revolt. The leaders have told him frankly, moreover, that they will not be able to hold back the dogs of war on the republican side much longer.

Members have gone to Reed and Hitt, and even to the White House, that their political future is now at stake; that their constituents are commending them to vote for Cuban independence, and that their duty to constituents is above party policy.

Some of the members, like Colson, have openly declared their intention of voting for any revolutionary measures if the administration does not act promptly. In six weeks or two months these men have to go into their districts for re-election and election, and they are doomed to defeat if they continue to obey the party lash and vote against taking up the Cuban problem. This is the situation that stares the administration in the face, and the President feels that if he does not take some independent action that the question will be forced upon him by congress.

In the meantime the Spanish Minister is hammering at the doors of the state department for an explanation of Mr. Hitt's words and of the movement of our battleships. The situation is regarded here today as very grave, and there is much suppressed excitement at both ends of the capital.

## A WELL PLEASED CROWD

Witnessed "Miss Francis of Yale" Last Night.

"Miss Francis of Yale" was greeted last night at Morton's opera house by one of the largest and most representative crowds of the season, almost every seat being occupied. There was a howl of merriment from the time the curtain rose until it descended on the closing climax. There was never a more delighted audience at Morton's, and never a better farce comedy. The play does not abound in plot. There is just sufficient to float the piece, but the ludicrous situation, witty and humorous dialogue and superb acting furnish ample amusement without any great amount of plot. Some of the scenes and situations are somewhat suggestive, but the public does not mind that. The acting of the entire company was good, but that of Mr. Etienne Girardot, as "Frank Stanyon," was particularly artistic, as was that of Miss Fannie Young in "Miss Mann."

## A Rise of One-Tenth in Two

Hours—Yet No Cause

for Alarm.

The river continues to rise here, with 37.8 on the gauge at 3 a. m.

The limit, thirty-nine or forty feet will probably now be passed, as the Ohio is rising above, and the Mississippi at St. Louis. Fortunately the Tennessee and Cumberland are not dangerous just now.

The weather bureau's report states that unless today's rain is general, there is no cause for alarm. The rise was five-tenths from 6 p. m. to 1 a. m., and one-tenth from 1 a. m. until 2 a. m.

One gratifying thing is that most of the farmers in the bottom land have succeeded in moving their corn to a place of safety. Last year a great deal of grain was lost by a failure to take the necessary precautions.

## UNDER ARREST.

Mrs. Ida Ditcher in Custody

For Deserting Her

Child.

Was Released on Her Own

Recognizance—Told a Sad

Story.

Mrs. Ida Ditcher, charged with

abandoning her six-weeks-old babe at Kettler's boarding house Monday, was arrested at La Belle park by Officer Gray yesterday afternoon late.

She had been employed at Park Keeper Stewart's for several months, and is recommended as a good worker.

She was brought to the city and taken before County Judge Tully, who issued the warrant against her. She made no denials, but immediately confessed to being the mother of the deserted babe. She assigned poverty as the cause of her action, saying that she desired the child to be well taken care of.

She told a fearful and pitiful story. A poor working girl, she was driven from her home in Marshall county about nine months ago, and was forced to come to the city to earn a livelihood. Here she fell a victim to the wiles of a machinist, who drew his pay and skipped out several weeks ago, as soon as he learned her condition.

There was not a heart that was not touched by the mother's story. They joined her for her misfortune, and lawfully condemned the heartless liar who led her astray and then deserted her in her time of need. She was so honest in her confession, and seemed so free from any intention to do wrong, that Judge Tully released her on her own recognizance to answer Monday. It is thought she will not be prosecuted.

## WHERE IS BLANKS?

Many believe the Sever was located.

Boh Blanks, the Mayfield rapist, in the veranda of the streets, has "got 'em guessing."

He has been "located" in several counties adjacent, and in a few places across the river in Illinois, but strange to say, he never has been captured.

It is now believed by a great many that Boh Blanks never has been located, but that he has lost no time in widening the distance between himself and the scene of his crime.

The general opinion in the lower part of the county, where Blanks is supposed to have been seen last week, is that if seen at all the colored people have been shielding him and throwing the pursuers off the track entirely.

If any one is now searching for him, no one is aware of it. All hope of ever capturing him has about been abandoned.

## HOSPITAL.

Little Room for Residents or Strangers.

The city hospital is taxed almost to its capacity, and there is little room for more. There are daily received applications from foreign paupers for admission to the hospital, but these must be refused, and could not legally be granted, even if there were no one in the hospital.

Mayor Lang has decided, in regard to the purchase of \$150 worth of surgical instruments for the hospital, that it is not the duty of the city to furnish them, but the duty of the city physician. The motion to furnish the instruments was made at the last meeting of the council by Chairman Robertson, of the hospital committee, and defeated.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a running ear, which is often discharging a thick, yellow, or green discharge, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever. Our cases are not caused by catarrh, which is nothing but an inflamed mucous surface.

We will give One Hundred Dollars for any case of deafness cured by our method. Send for circulars free.

## BLOOD POISONING

Threatens Lee Taylor, a Young Man

Who Finds Himself Here in Destitute Circumstances.

Lee Taylor is the name of a young man who reached the city last night on the Cumberland river steamer and applied today to Mayor Lang for admission to the city hospital. He has tramped all the way from Clarksville, Miss., and is here in a destitute condition, with threatened blood poisoning in one foot.

Taylor is an honest, intelligent looking young man, and on October 6th, last, cut his foot at Clarksville while hoeing logs. Owing to the swollen condition of it, it could never be stitched up, and has never healed. Blood poisoning is now threatened, and young Taylor thinks with a little treatment and attention he would be able to continue his journey in a week. He has written his father at Troy, Ind., his home, for funds, and expects a reply in one week, but has no means of subsistence.

He was sent to City Physician Rivers this morning to have his injuries dressed, and Mayor Lang said he would assist him on his way. While a few days in the city hospital might be the means of saving his foot or limb, the hospital is now crowded.

## LICENSE DEMANDED

Of a Medico With Long Hair and Hypnotic Tendencies.

A long-haired medico, whose wife is said to be a clairvoyant, and who is in the patent medicine business, was taken to the city hall yesterday afternoon late by License Inspector Jarvis to determine whether or not he was eligible to pay license.

After an animated argument with Prosecuting Attorney Wheeler Campbell, in which the latter almost fell a victim to the hypnotic influence of the man with the hirsute endowment, Mayor Lang was called in to settle it, and decided that Mr. Doctor had to pay a license to April 30. He protested, saying his business didn't justify it, and then wanted permission to lecture, but it was decided that a license was necessary before he could do this, and he was given leave to remain until Monday without paying a license.

## HEAVY RAIN.

The City Again Flooded in Several Localities.

The rain which began early this morning reached a climax about noon, when there was such a heavy downpour that many parts of the city were flooded, and several localities so inundated that the streets and sidewalks were impassable for some time.

During the storm, thunder was heard, which old weather profits say indicates colder weather.

The rainfall up to 2 o'clock this afternoon was 2.18 inches. In the estimation of a great many, it was one of the heaviest rains ever known in this section. Some of the stores on South Third street, Jefferson, Adams and in other localities were flooded, and many sections were still in water at press time.

## THE NEW RICHMOND

Mr. G. E. Rhodes and family, of Shreveport, La., arrived yesterday, as anticipated in the Six several days ago, to take charge of the New Richmond Hotel. He will not assume control until Monday.

Mr. Rhodes is a pleasant gentleman, and comes to Paducah highly recommended. He will continue to keep the hotel up to a high standard, and proposes to give his patrons only the best.

## FARMERS' FIGHT.

Graves County Men Come Together.

Ben Johnson and Jack Duhlin, two well known farmers of the Lynnville section of Graves county, went to Mayfield yesterday, and there engaged in a desperate fight, as a result of which John was badly cut in the head by Duhlin.

The trouble arose over the hauling of a hoghead of tobacco, the two farmers disagreeing about the price of the hauling.

## CULVERT TOO SMALL.

Kick From the Benton Road People.

There is a culvert on the Benton road, a half mile inside the city limits, which is occasioning the residents no little trouble. It passes under the road, and is a six inch pipe, when the people claimed it should be 24 inches. The result is the rain and back water, unable to get through, overflows the road. The attention of the city authorities is called to it.

## VENERABLE LADY

Passed Away Yesterday

Death of Mrs. H. H. Henry.

Was Eighty Years of Age—Sixty Years a Christian.

Mrs. H. H. Henry, the venerable mother-in-law of Mrs. W. H. Hook, died at 5 o'clock yesterday afternoon at the family residence on North Ninth street, of general debility.

The deceased was born at Lexington, Ky., in 1818, and was 80 years old. Her former name was Fitch, and she is a sister to Mr. Eliza Fitch, one of the most prominent Masons in the state. She came to Paducah in 1871, and had since resided here.

The deceased was a worthy Christian lady, having been a member of the Christian church since 18 years of age.

She leaves two children, Mrs. W. H. Hook, of the city, and Mr. John S. Henry, of Hawesville, Ky.

The funeral will take place tomorrow afternoon at 2 o'clock from the residence, interment at Oak Grove.
